Super You 2.0

Materials:

- Super You 2.0 Helmet Sheet
- Construction Paper
- Crayons
- Scissors
- Glue Stick
- Tape
- Super You 2.0 Personalized Iron On

Talk About It:

S is for Super Science Sleuth!

Super Grover 2.0 investigates by observing, questioning, and doing experiments. Encourage your child to unleash her powers of investigation! Help her make observations about what's new or what's changed in her environment. Ask questions like, "What do you think would happen if…?" and "How do you know?"

Make it:

Step 1: Things You'll Need
Collect the items on the material list.
Little Hands Tip: Talk about what adventures you'll have when you're Super You.

Step 2: Print Your Superhero Helmet
Print out the Super You 2.0 helmet.

Step 3: Discover Color
Help your child color in the helmet printable.
Little Hands Tip: Name each color as you use it. What is your favorite color?

Step 4: Cut It Out
With a glue stick, attach the printable helmet to a piece of construction paper or card stock, then carefully cut it out.

Step 5: Big Headed Investigation
Size the helmet to your child's head and attach with tape.
Little Hands Tip: Ask your child who he thinks has a bigger head. Get out the measuring tape and compare. What is the size difference?

Step 6: Superhero Badge of Honor
To create your own personalized super shirt, download and print the letter of your child's name from this craft. Print and follow the instructions on the PDF.
Little Hands Tip: Talk about the first letter of your name. How many things can you name that start with the same letter?

Step 7: Super You to the Rescue
Now, unleash your powers of investigation! Introduce simple experiments, like finding out what floats or sinks, or what happens when an ice cube is left out of the freezer.
