

PIZZA

MATH

Astronaut Elmo needs enough pizza slices to feed 3 hungry Martians. Color in one slice for each Martian. How many slices did you color?

Parent Tip:

When your child has completed the activity on the page, cut the pizza into slices. Use them to do fun addition and subtraction games. For instance, start by having your child count all 6 slices. Then, say that 3 floated into space and take 3 slices away. Ask your child to count how many slices are left over!
